“Teeming with images of spectacular underwater scenes from around the world, Call of the Blue is the culmination of a five-year project by the photographer and ocean conservationist Philip Hamilton. This groundbreaking book includes contributions from acclaimed scientists and ocean ‘guardians’, who reveal what drove them to answer the call of the blue.

“Philip Hamilton, a seasoned underwater photographer, has spent the past five years seeking out the stars of the seas, but also the smaller, lesser-known creatures. In his book, “Call of the Blue”, there are pin-sharp close-ups of a hawksbill turtle and a great white shark – and of a tiny xeno crab and a strange group of Lambert’s worm sea cucumbers.
